Mustafa N. Merie

009647707491630 | mustafanawzatt@gmail.com | Github MustafaNawzat | Portfolio

Front End web developer with a passion for applying my abilities for new challenges. With experience in HTML/CSS, JavaScript, and React. I bring strong skills in team-building and problem solving that help tech companies drive a positive impact.

TECHNICAL PROJECTS

Mentorship - Github | Demo
A website that allows you to find a Mentor/Mentee with the time that suits you and connect with them really easy.
+ Worked with a team, using Vanilla JavaScript, to build this website.
+ Utilized Materialize for responsive styling.
+ Used Google Firebase as a database to store the data.

MyPortfolio - Github | Demo
A Personal portfolio website template, to list all my projects in.
+ Coded with React and React routes to build a multi-page website.
+ Utilized Bootstrap for responsive styling.
+ Added Emailjs for activating the contact page without using a server.

Mustafio - Github | Demo
One-page portfolio website template. Used the white space and the scroll effects to deliver an immersive experience.
+ Built with Pure HTML/CSS.
+ Used CSS Media Queries for responsive styling.

TECHNICAL SKILLS

- Git & Github
- HTML/CSS
- Bootstrap
- JavaScript
- ReactJS
- Adobe Photoshop
